4

THE MATRIX AND TENSOR QUARTERLY

Three Year Index, Vol. 18–20, 1967 – 70

This index covers original papers, letters to the Editor, reviews, and references to certain publications of interest to readers. The more general topics such as abstracts of papers and articles, notices of College and University courses and lectures etc., are excluded as being items rather of passing interest.

VOLUME 18, 1967–68

ARTICLES

		Pages
No. 1, September, 1967		
On potential hypersurfaces	C.T.J.DODSON	1 – 6
The computation of the transfer matrix of uniform systems	L.A.PIPES	7 – 14
No. 2, December, 1967		
A new tensor theory of electric machines	U.A. VON de EMBSE	31 – 43
Multiple eigenvalues and corresponding eigenvectors in the study of symmetrical and related components	J.C.SABONNADIERE and M.POLOUJADOFF	44 – 54
No. 3, March 1968		
L, the mixed tensor of rank 4 in network analysis	J.P.CHAR	65 – 83
Non-linear control system dynamics on the Matric computor	P.M.HONNELL and R.J.MULHOLLAND	84 – 87
No. 4, June 1968		
Frequency response analysis of transistor networks by Kron's junction-pair approach	E.E.MABLEKOS and T.J.HIGGINS	99 – 128

REVIEWS

No. 1, September, 1967		
Classical and contagious discrete distributions, edited by G.P.Patil	(C.T.J.D.)	26
Perspectives in geometry and relativity, edited by Banesh Hoffman	(K.M.)	26
No. 2, December, 1967		
The Hamilton-Jacobi theory in the calculus of variations, by H.Rund		60
Non-linear programming, edited by J.Abadie		60
Higher calculus, by F. Bowman and F.A.Gerard		61
Recent developments in network theory, edited by S.R.Deards		61
Engineering mechanics, by W.W.Hagerty and H.J.Plass		61
No. 3, March 1968		
Electricity supply, by M.F.Buchan	(M.W.B.)	92
Vocabulary of mechanics in five languages, edited by A.R.Troskolanski	(B.R.)	92

CORRESPONDENCE

No. 1, September, 1967		
Reality of eigenvalues for a class of real, unsymmetric matrices	E.J.DAVISON	15 – 16
On the logarithm of a matrix	R.C.MULLIN and R.G.STANTON	16 – 24
No. 2, December 1967		
The statistical geometry of continua	C.T.J.DODSON	55
Functional network analysis; has the network analyzer a part to play?	E.E.DWECK	55 – 59
No. 3, March 1968		
Planar graphs and circuits	V.V.BAPESWARA RAO, K.SANKARA RAO, P.SANKARAN and V.G.K.MURTI	88 – 89

U. of ILL. LIBRARY

JUN 10 1971

CHICAGO CIRCLE

VOLUME 19, 1968–69

ARTICLES

		Pages
No. 1, September, 1968		
Commemorative issue to Dr. Gabriel Kron, with contributions from the following:		1 – 39
ANNE KRON, R.T.ACKROYD, B.ADKINS, P.L.ALGER, S.AMARI, F.H.BRANIN, Jr., G.S.BROSAN, J.P.CHAR, C.CONCORDIA, C.T.J.DODSON, U.VON DER EMBSE, A.GHITTA, W.J.GIBBS, B.R.GOSSICK, J.GREIG, G.GUERRA, H.H.HAPP, B.HOFFMANN, P.M.HONNELL, S.JUHASZ, A.KAUFMANN, A.KAWAGUCHI, T.KAWAGUCHI, L.K.KIRCHMAYER, K.KONDO, J.W.LYNN, H.MAJMUDAR, S.D.MOORE, J.R.MORTLOCK, S.A.NASAR, H.NICHOLSON, J.E.PARTON, A.J.PENNINGTON, L.A.PIPES, A.J.ROTHMAN, R.E.VOWELS		
Publications of Gabriel Kron (1930–1968)	H.H.HAPP	39 – 44
No. 2, December 1968		
Wave propagation in anisotropic media	H.P.HSU	47 – 63
Definition and relation of statistical functions by means of matrices	H.M.NELSON	64 – 71
No. 3, March 1969		
Simple applications of dissection theory	J.BATY and K.L.STEWART	81 – 102
No. 4, June 1969		
Regional connectivity and circuit enumeration in planar graphs	B.R.MYERS	115 – 121
A resume of simple step-by-step methods for integration of linear differential equations	L.A.PIPES	122 – 132

CORRESPONDENCE

No. 2, December, 1968		
An easy rule to invert a class of tridiagonal band matrices	V.VEMURI	72 – 79
No. 3, March, 1969		
Dr. W.J.Gibbs (obituary)	B.ADKINS	103 – 104
Bond graphs and diakoptics	H.M.PAYNTER	104 – 107
Sur les relations entre les mathematiques, la physique et la logique	J.DE RIES	108 – 114
No. 4, June, 1969		
Note on the physical components of vectors	R.L.HUSTON	133 – 136
Discussion on 'Multiple eigenvalues and corresponding eigenvectors in the study of symmetrical and related components'	L.A.PIPES, E.W.KIMBARK, A.ROTHMAN, J.C.SABONNADIERE and M.POLOUJADOFF	136 – 138
An extract in retrospect	J.L.SYNGE	139 – 144

VOLUME 20, 1969–70

ARTICLES

		Pages
No. 1, September 1969		
Tensors in discrete elastic systems	H.KARDESTUNCER	1 – 9
Chemical network matrices	L.A.MADONNA	10 – 18
No. 2, December, 1969		
The curvature of potential hypersurfaces	C.T.J.DODSON	31 – 38
A rotating disk in a conformally flat, isotropic space	G.WILLIAMS	39 – 43
No. 3, March, 1970		
Matrix theory of symmetrical-component networks for n-phase systems	J.E.PARTON	61 – 84
Linear diffusional networks	L.A.MADONNA	85 – 90
No. 4, June 1970		
Cyclical functions and permutation matrices	L.A.PIPES	99 – 111
General solution of harmonic oscillator with feedback by a tensor method	T.K.MITRA and S.P.BHATTACHARYYA	112 – 119

REVIEWS

No. 1, September, 1969	
The life and times of Gabriel Kron, or, Walking around the world and tensors, edited by P.L.ALGER, with the aid of H.H.HAPP and B.HOFFMANN	27
Variational methods in elasticity and plasticity, by K.WASHIZU	27
Practical diakoptics for electrical networks, by A.BRAMELLER, M.N.JOHN and M.R.SCOTT	27 – 28
Topology on spaces of holomorphic mappings, by L.NACHBIN	28
Elasticity: tensor, dyadic and engineering approaches, by P.C.CHOU and N.J.PAGANO	28
A course in vector analysis, by Ll.G.CHAMBERS	28
No. 2, December, 1969	
Theoretical elasticity, by A.E.GREEN	59
Applications of finite difference equations to shell analysis, by M.SOARE	59
No. 3, March, 1970	
Matrix methods for engineering, by L.A.PIPES	94
Cartesian tensors in engineering science, by L.G.JAEGER	94
Matrices and tensors, by G.G.HALL	94
Mathematical statistics, by B.L.VAN DER WAERDEN	94 – 95

CORRESPONDENCE

		Pages
No. 1, September 1969		
The Laplacian in policeman's coordinates	E.A.POWER and T.THIRUNAMACHANDRAN	19 – 24
Corrigendum to "Reality of eigenvalues for a class of real, unsymmetric matrices"	E.J.DAVISON	24
An extract in retrospect	K.L.STEWART	24 – 26
No. 2, December 1969		
Brief comments on Choleski's method	L.R.HARVILL	44 – 47
Simplified method of computing desired response functions	D.H.S.CHENG	47 – 50
An easy rule to invert a class of tridiagonal band matrices	V.VEMURI	51 – 53
A comment (on Vemuri's paper)	D.C.RUSSELL	53 – 55
A novel way of expressing the inverse of a class of tridiagonal band matrices in terms of Gegenbauer polynomials	V.VEMURI	55 – 58
No. 3, March, 1970		
A variational principle in electromagnetism	Ll.G.CHAMBERS	91 – 93
No. 4, June 1970		
On Bond graph theory and "The penetrating but Olympian tensorial methods of Kron"	D.KARNOPP	120 – 124
On the identity between power invariance and topological invariance	T.KARUNAKARAN and P.S.SATSANGI	124 – 127
An extract in retrospect – re: Invisible dual (n – 1) networks induced by electrical 1–networks	P.M.HONNELL and G.KRON	128 – 130
RAAG Memoirs of the unifying study of basic problems in engineering and physical sciences by means of geometry, Vol IV, (Contents list)		130 – 132
